## Manuvis Launches Disaster Recovery Assurance Software Service

*Manuvis introduces secure, reliable, secondary disaster recovery assurance for FactoryMRI<sup>®</sup> software customers at NO additional investment*

**CLEVELAND, Ohio. – October 16, 2007 – [Manuvis Corporation](#)**, a leader in delivering innovative, real-time enterprise manufacturing intelligence software solutions that enable companies to lower operating costs, improve customer service, and increase profitability, announced today it has immediately begun offering its customers additional assurance in the event serious incidents occur at their operations.

FactoryMRI<sup>®</sup> is the first and only enterprise manufacturing intelligence solution that pulls data directly from shop floor machines-including time and labor-and transforms it into powerful, actionable information. FactoryMRI's innovative, [service-oriented architecture](#) now includes a service that has the ability to extract all of the unique configuration profile data. This configuration information can be relayed to a secure offsite storage location, ensuring a swift recovery of data should a serious incident or accident prevent the business from continuing normal operations.

###

### About Manuvis

[Manuvis](#) is a leader in delivering innovative, real-time enterprise manufacturing intelligence software solutions that help manufacturing firms lower operating costs, improve customer service, and increase profitability. Manuvis' FactoryMRI application is a comprehensive software solution that fully integrates enterprise software tools with the shop floor, allowing manufacturers to better leverage previous investment in ERP.

[FactoryMRI](#) has been designed and developed by a team of experienced manufacturing executives who needed a method to improve manufacturing data collection and availability processes. FactoryMRI's service oriented architecture was built with and operates on [Progress Software's \(PRGS\) OpenEdge<sup>®</sup>](#) business application platform. For more information on how to increase your company's profitability please visit [www.manuvis.com](http://www.manuvis.com) or phone 1-440-686-1525. *FactoryMRI is a registered trade mark of Manuvis Corporation. OpenEdge is a registered trade mark of Progress Software Corporation.*
